Successful registration

Registro de usuario

- Registro
- Login
- Ver usuarios

Nombre `Pedro` Email `Lopez` Password `••••••••••••••` Registro

registrado con exito

Usuarios registrados exitosamente figuran en collection users de MongoDB por este Frontend

The sucessfully registered users through the FrontEnd are verified that exist in MongoDB

```
▸   _id: ObjectId('66338fbe701baab63b105b24')
    name : "Pedro"
    email : "pedro@gmail.com"
    password : "$2b$10$p70bqzq/nnS.40bWJd8eIemBg9NSOwlGlMUrs3gjOhMhsbC6SsBMS"
    role : "user"
    image : ""
    __v : 0

    _id: ObjectId('66339018701baab63b105b29')
    name : "Lola"
    email : "lola@gmail.com"
    password : "$2b$10$MOGjKMu0cNzVPkx1Lr.MAeNuMslTZYxwLSrn.cNWbvgi2b/Ak6J5a"
    role : "user"
    image : ""
    __v : 0
```

La función FETCH es la que conecta el Front con el Back en user.js

The function FETCH is connecting the Front and Back *user.js

```
fetch('https://api-nodejs-project-bilyana-1.onrender.com/user/alluser', {
    method: 'GET',
    headers: {
      'Content-Type': 'application/json',
      Authorization: `Bearer ${token}`,
    },
```
